# Décor Information

- For a office of 19000 sq.ft we require atleast 2500 to 3000 total props
- This will include ceiling & wall props
- In addition to this we will be creating additional setups
- As per our yesterday's discussion, minimum cost which will occur for your requirement will come around 1.5 Lac Rs.
- Cost can go down if we will reduce the elements

Note:

\*If we are going for rented material than cost will go much higher as you require setup for almost 18 days.

\* Its recommended to create our own setups to reduce down the cost.
